[Audi Q3 TDI models](#)

Function in an elegant form – it's a highly appropriate description of the Audi Q3, which joins the Audi Q5 and Audi Q7 as the third model in the versatile sports-utility range.

A choice of four engines – two 2.0 TFSI petrol units offering 170PS and 211PS, and two TDIs with 140PS and 177PS – is available at launch, with both petrol engines and the 2.0 TDI 177PS driving through Audi's renowned quattro all-wheel drive system.

The 2.0 TDI 140PS engine initially will power a front-wheel drive model tuned for maximum efficiency, and returning an impressive 54.3mpg on the combined cycle. CO2 emissions from just 138g/km ensure BIK tax starting in the 20% band in 2011/12.

Audi Q3 prices start from just £24,560 ROTR, with generous equipment as standard: this Guide compares the Q3 range with key competitors for specification, operating costs and equipment.
